Looking to elevate your career in tech? At FERCHAU, we don't just meet expectations- we exceed them. Now, we're searching for a talented Fullstack Developer to join us. Ready to take your skills to the next level?

Fullstack Developer with German (m/f/d)

Remote Full time 120 – 150 zł Wrocław, Poland

This will be your future job

- Creating web applications with C# and TypeScript/React
- Developing features compatible with multiple device platforms, including iOS, Android, and Windows native
- Working closely with the frontend team to seamlessly integrate UI components using frameworks like MUI
- Managing code and collaboration through Git for version control
- Engaging in technical discussions in German to ensure smooth communication and development

Your benefits with us

- Rock solid stability of a company established in 1966 in Germany with more than 120 branches
- Reputable international customers offering projects not available in Poland before
- Great working atmosphere with a close-knit team of friendly people
- Team-building events
- Attractive offices in convenient city locations, modern software and hardware at your disposal
- Medicovert card
- Multisport / Multilife card (access to personal trainers, dieticians and therapists)

The right qualifications

- At least 4 years of commercial experience and expertise in both TypeScript/React and C#, ensuring high-quality development across both frontend and backend.
- Proficient in using Git for version control in collaborative development environments
- Background in multi-platform development, covering iOS, Android, and Windows native environments
- Familiarity with Kubernetes and Helm
- Proficiency in German (minimum B2 level) enabling effective participation in technical discussions

Is what we offer a perfect fit for you? Then we look forward to receiving your application!
